Matiz Andaluz Marcona Almonds

Known as the chef's choice in almonds, the marcona almond has the highest fat content of all the almonds, polyunsaturated of course, and thus the most texture and flavor. Our marconas are selected by hand, choosing the largest and best almonds. They are then salted and lightly fried in olive oil in small batches. They're perfect for cooking, for baking, and, as all great chefs know, for noshing - completely addictive.
